Wedding at Glory Hills.

At Glory Hills, on Tuesday, March 6th, Miss Lily Elizabeth Albrecht (daughter of Mr and Mrs George Albrecht of Vegreville) was united in marriage to Mr Henry George Albrecht (son of Mr and Mrs Conrad Albrecht, of Glory Hills). The ceremony was performed by Rev F W Benke, of Glory Hills Baptist church.

After the ceremony the wedding party and guests sat down to a sumptuous repast, at the home of the bridegroom's parents.

The bride was dressed in white flat crepe, and her veil was held back by a wreath of orange blossoms and pearls. She carried a bouquet of pink carnations.

The bridesmaids were—Miss Katherine Albrecht of Vegreville and Miss Elizabeth Albrecht. The best men were: Messrs George E Albrecht of Vegreville and Jno. Albrecht, Miss Annie Fay Albrecht (sister to the bridegroom) played Mendelssohn's Wedding March.

The happy couple left on a honeymoon trip to Vancouver, Victoria and other Coast cities.

The Glory Hills Charivari band paid their best respects by giving a selection free, to welcome the bride.

Sale of Purebred Stock.

Attention is drawn to the advt. in another column of the big auction sale tomorrow, the 16th, which Mr Allen R Gillies is holding at his farm, Clover Bar, 12 miles east of Edmonton. The stock offered includes a large number of purebred mares and geldings, Ayrshire cows and heifers, and Yorkshire swine.

LOCAL NEWS.

Mr and Mrs Val Ursel have moved to their new residence on 110th ave., Edmonton.

Mr and Mrs Jacob Miller have returned to Stony, after a fortnight's stay at Banff Springs.

Mr J A Barrie, proprietor of the summer resort at Edmonton Beach, motored out on Saturday from Edmonton. Mr Barrie has been spending the winter traveling for the Massey Co.

Mr Geo Oppertshauser is at present in Misericordia hospital, in Edmonton, recovering from a minor operation which had been performed on Friday last.

Mr Geo Worsley, a former resident of this district, but now of Onoway, was in Stony yesterday.

Callahoo hockey team is billed to play a return game here on the 18th.

While operating a mortise machine at the Arnbruster planing mill on Saturday, Mr John Metzler had the misfortune to have his hand caught in the blades, cutting off the first three fingers and part of the fourth finger. His injuries were attended to here, and he was afterward taken to an Edmonton hospital for further treatment. About six years ago, Mr Metzler had his other severed, at the wrist, while operating a machine of a similar kind.

The Sinner case, which was scheduled to come up, today, in an Edmonton court, has been set over until the May Sessions.

There will be R. C. services in the town hall Sunday morning next at 10.

The animals to be offered at the big sale of horses in Stony Plain on Saturday afternoon next, the 17th, will be on view at the Zucht livery barn today, tomorrow and Saturday. These are said to be a pretty nifty bunch which will come under Auctioneer Zucht's hammer on the 17th.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, March 30th.

Len's Lucky Week.

This was another lucky week for Len. On Tuesday he is said to have won ten bucks; altho the wager was won on what was practically a sure thing. Len is a hard-boiled admirer of the Chevrolet car; so, when a salesman for another car offered to bet Len that his (the salesman's) car was heavier than the Chevie, Len accepted the challenge. Coaches of each make of car were taken down to the Arnbruster mill, where it was found the Chevrolet car outweighed the other bettor's car by over 50 lbs. The Chevie has the weight in its much stronger chassis.

Canada's Future

Canadians should take a big view of their country and its future. There should be nothing narrow nor small in their conception of the Dominion present or future, but rather our vision should be broad, large and courageous. The individual man who persists in looking out on life through blue spectacles, who can never see any possibility of success ahead because of obstacles in the path, who is forever contrasting his inferior position with that of a more successful neighbor, will be a failure. And what is true of the individual is equally true of a nation.

The habit indulged in by some Canadians, both in public and private life, of comparing Canada with its sixty years of history as a confederated unit with the United States with its 150 years of union, and Canada with its ten millions of people with the more than one hundred and ten millions in the United States, is just as absurd as it would be for a merchant established one year in business and with five employees to complain that his business turn-over was not equal to that of another merchant with a business of many years' standing and a staff of employees ten times as large. Yet many people persist in comparing Canada of today with the United States of today, instead of comparing Canada with the United States when that country was of the same age or had approximately the same population.

Comparing Canada with the present United States gives the latter the advantage, but the disadvantage is all with Canada when it is compared with the United States at the same age or with an equal population. Even making full and ample allowance for changed conditions resulting from science and inventions, discoveries and advancements of all kinds, the contrast is decidedly and greatly in Canada's favor.

For example, it was not until the United States had a population of seventy-five millions of people that its trade reached the figure which Canada now enjoys with ten millions of population. When the United States had a population only equal to that of Canada today, it did not cut much of a world figure; it was not a leader in any department of world production or commerce; rather it was engaged in the pioneer task of its own domestic development, and it would have been just as reasonable to decry the United States and its future then because it did not measure up to the older countries of Europe, as it is now to decry Canada and its future because it has not already attained to the stature of the United States.

Young in years and small in population, Canada is today a real factor in world affairs. It has outstripped the United States and all other countries in the manufacture of paper, it has become the world's greatest exporter of wheat, it is the chief source of the world's supply of nickel and asbestos, year by year it is overtaking the United States in the production of gold and is not now far behind. For some years past employment has been as general as in the United States, and in the last two years has been even better. Canada today finds itself to an extent the United States was not able to do until it was many times our size.

Nowhere else in the world are there two nations living side by side, speaking the same language, with the same monetary system, and having similar customs and ideals. Yet there are people who profess surprise that there is a constant exchange of population across our international boundary line, and that the larger and more powerful magnet of the United States should attract the greater number. It would be against all reason and nature if it were not so. Yet we make bold to predict that the day is not far distant when Canada will prove the more powerful magnet of the two, and population will flow from the United States into Canada in a greater and more steady stream than has ever flowed southward.

Paradoxically, many of the very people who deplore any exodus of Canadians to the United States, at the same time object to United States people and capital coming to Canada because of a fear that Canada will thus become Americanized. Others object to Canadian capital being invested in the United States or other countries, claiming it should be kept at home for investment and development purposes.

In all this is to be seen an attitude of doubt, of fear, a spirit of "little Canadianism," expressive of an inability to stand on one's own feet. It is an attitude which, were it at all general, would inevitably drive the self-reliant, forward-looking youth of Canada out of the country. Such people would do well to throw away their blue spectacles, and realize that Canada is on the map of the progressive nations of the world to stay. They should become inculcated with the considered opinion of the Prince of Wales who recently declared: "Canada is on the threshold of one of the most astonishing eras of expansion and development ever seen. Exactly how long that will take none of us know, but certainly it will occur in the lifetime of many of us."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude helps. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Northern Saskatchewan Development

Provincial Government is Planning To Aid Mineral Prospectors

The new department of industries of the Saskatchewan Government is planning to aid mineral prospectors in the northern sections of the province. In conjunction with the Dominion Government, aerial surveys will be continued, and it is hoped that the whole north-eastern mineral area will have been surveyed and reduced to geographical maps by the end of next year. The department is getting itself in the position whereby it can be of every assistance to the prospector and investor. At the present time there is very little accurate information of Saskatchewan northern mineral areas. Recognizing that great development can be looked for both in these areas and the western mining areas of Northern Manitoba, the provincial department is speeding up aerial mapping of the territory as well as the plans for its own provincial activities in the coming season. The minister states it is the intention of his department to place its facilities at the disposal of the prospector and the investor. "The miner will be given every possible assistance," said Mr. Spence, "at no cost to himself to develop his proposition. We will assist him through our experts at the university and do everything possible to place him in the position of developing any proposition which appears to have evidence of successful working out. To the capitalist the department will be prepared to offer to assist in developing water powers and coal fields and to co-operate in every way."

Silk Stockings

Have stockings in the very newest shades; your old or faded stockings given any tint in the rainbow in five minutes; with fifteen cents' worth of Diamond Dyes! But use dyes, not synthetic tints. And be sure they're true dyes.

Try a pair tonight! Use Diamond Dyes, and no one will dream they were tinted at home. And you can do real dyeing with just as perfect results. If you will just use the true Diamond Dyes.

Diamond Dyes

Just Dip to TINT, or Boil to DYE

Growth Of Wheat Pool

Now Has a Membership Of 140,000 Farmers

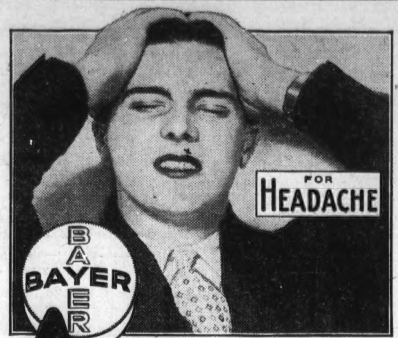

The most recently compiled returns show that the Canadian Wheat Pool has a membership of 140,000 farmers with a wheat acreage under contract of 15,000,000 in the provinces of Manitoba, Saskatchewan and Alberta. The Pool operates 942 country grain elevators with a total capacity of 30,000,000 bushels and ten terminal elevators with a total capacity of 23,000,000 bushels. During the last crop year the Pool shipped 124,000,000 bushels of grain to 24 countries through 60 ports of the world, 50,000,000 of which went to the British Isles.

Canadian Nationality

To the unanimous national protest against the objectionable practice of census statisticians in refusing to recognize such a thing as a "Canadian" nationality, the government must pay heed. It is absurd to style a child whose grandfather was an Englishman married to a Scotch woman; whose father was born in Canada and married a Swedish woman, as English. The lad is a Canadian, second only in standing to the North American Indian—Western Producer.

Keep Minard's in the Medicine Chest.

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Excursion To Sweden

Many Are Planning To Revisit Native Lands On the Baltic Sea

Rev. Oscar Gunnerfelt, of Winnipeg, is organizing a special midsummer excursion to Sweden, Norway, Denmark and Finland, which is to leave Winnipeg about May 14, by Canadian National Railways, and will sail from New York May 21, on the S.S. Drottningholm. Already quite a number of applications have been received for reservations, and it is expected that a large party from Western Canada and Minnesota and North Dakota will take advantage of this opportunity of revisiting their native lands on the Baltic sea.

Minard's Liniment kills warts.

Wins Many Prizes

Widely Known Horseman From Brampton Will Reside In Saskatchewan

W. J. McCallum, the widely known horseman of Brampton, Ontario, and Regina, Saskatchewan, has completed arrangements whereby he will permanently reside in Regina and have his stables there as a distributing point. Mr. McCallum entered over 100 horses at the Royal Show, Toronto, last fall, filling three stables with his own importations. No exhibitor ever won so many championships and prizes as he won at that show.

It is much easier to be critical than to be correct.

Curious New Lifeboat

Invention Of Ship's Carpenter Said To Be Unsinkable

A ship's carpenter, after 60 years at his trade, has invented a new lifeboat of a very curious kind. It is practically two broad, shallow boats fixed bottom to bottom, so that as one half is capsize the other half is righted. It is said, however, to be practically impossible to capsize it, still more to sink it. In the double bottom are valves which will let the water out but will not let it in which ever way up the boat is; and there are tanks for fresh water and food which can be reached whichever side of the boat may be uppermost.

In a moment of weakness the Hamilton Herald advocates "Amn't I?" as a substitute for "Am I not?" That paper ought to have its head x-Amn't.

This Discovery Will

Benefit Millions

Mr. W. J. Dorion, New York, writes: "Sick headache, indigestion and constipation have troubled me for years. I tried everything, but truthfully your purely vegetable laxative pill is the best daily regulator I have ever taken." CARTER'S LITTLE LIVER PILLS All druggists—25c and 75c red pkg.

HERCULES

PERMANENT BUILDING PAPER

Beauty in a home may be only skin deep.

A beautiful home is not always comfortable nor easily salable.

Hercules does for a home what beauty cannot. Tested and proven wind proof and damp proof, Hercules makes a home warm and dry at all times—the home that buyers seek.

Hercules comes in three grades—No. 1, 2, 3—for various needs. How Hercules fulfills our claims is easily understood after an examination. May we send a few samples?

Appelhof Paper Products

Commander Byrd Sketches Plans For His Proposed Dash To The South Pole This Fall

Reclining in an easy chair at the Governor's mansion at Richmond, Virginia, Commander Richard Evelyn Byrd pictured the time when he would be camped on a stationary iceberg, 2,300 miles from the nearest human dwelling, on his projected expedition trip to Antarctic regions.

Commander Byrd said his expedition would sail south in September, 1928. He expects to return by June, 1929, though there was a possibility, he said, that he might be delayed a year.

New Zealand is to be the first stop of the adventurer and his men. Then comes the voyage for the Ross ice barrier, 2,300 miles to the south.

The main base of the expedition will be at the Bay of Whales, where Amundsen had his headquarters, according to present plans.

"This is 2,300 miles from the nearest human dwelling—the farthest people have ever lived from civilization," Commander Byrd said, "and there we shall establish a small village."

"After making camp, we shall establish several sub bases about 100 miles apart on our way to the South Pole. These will be necessary, for in the event of a forced landing we shall be able to hike to a food supply."

"The final flight to the Pole will be the most hazardous. In addition to the radio, we shall use a kite to keep in touch with the last base. As the South Pole is on the last plateau, 10,000 feet high, landing will be difficult. The air at the height of two miles has lost so much denseness that it requires a great deal of power to take a plane off the ground and we shall land with at least 1,200 gallons of gasoline and 1,000 pounds of emergency equipment. Our landing speed must be fast."

For the flight to the Pole a big monoplane with three engines and a wing spread of 75 feet, probably will be used, the Virginia aviator said. In addition, the expedition will carry two single engine monoplanes of the type used by Chamberlain on his trans-Atlantic flight. Radio will be used to keep in constant touch with civilization and an "ice ship," with a bowed hull and two projecting timbers to push aside floes is being constructed. Fifty-four men, including a dozen experts, will make the trip. Floyd Bennett, who accompanied Byrd to the North Pole, will be second in command.

Maps of the polar regions will be made of everything encountered and the scientific data brought back to civilization. The frozen area to be explored is larger than the United States and Mexico combined.

"Science is the loser so long as there is a large, unexplored area in the world," Byrd said. "This trip is primarily for scientific purposes and I regard whatever hazards encountered as justified by the increase in man's knowledge which the expedition will make possible."

Million Bushel Elevator At Coast

A contract has been awarded for the construction of a million bushel grain elevator for the Fraser River Elevator Company on the Fraser River near New Westminster, B.C. The elevator will be located on the south side of the river on a spur of the Canadian National Railways. The contract price is \$450,000.

"Are you going to spend the winter here?"
"No, I ought to have gone three months ago, but I have been afraid of seeing the bill." — Journal Amuseant, Paris.

W. M. U. 1724

To Improve Quality Of Canadian Barley

Conference In Ottawa Attended By Representatives From Provinces

Preliminary steps for improving the quality and broadening the market for Canadian barley were taken at a conference held here in Ottawa under the direction of Dr. J. H. Grisdale, deputy minister of agriculture. All the prairie provinces were represented.

A committee has been appointed to investigate the question of securing the varieties and strains best suited to the different localities where barley can be profitably grown.

The committee includes L. S. Newman, Dominion cerealist and Professor A. T. J. Harrison, of the Manitoba Agricultural College, Winnipeg.

A seed committee also was appointed with Major H. G. L. Strang, of Fern, Alta., as a member, while a barley markets extension committee was formed, composed of L. H. Newman and Professor Grant, of Winnipeg.

Several of the delegates stressed the importance of barley growing where wheat and oats could not be successfully produced, and recommendations made for adopting new barley grades. A committee was appointed to see what could be done to secure amendments to the Canada Grain Act which would provide grades for malting barley.

1719

A Chic Frock

The smartly simple frock pictured here is suitable for many occasions. There is a circular inset at each side of the skirt, a V-shaped neck finished with applied bands and long dart-fitted sleeves. No. 1719 is for ladies and misses, and is in sizes 36, 38, 40 and 42 inches bust. Size 38 requires 4 yards 36-inch, or 2 1/2 yards 54-inch material. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical style, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

LARGER EQUIPMENT REDUCES FARM LABOR

Farmers Should Keep This In Mind When Replacing Implements

The economical use of farm labor is essential to profitable farming. Labor is often heedlessly wasted because farmers have not calculated the hours of manual labor that they could save by using, on farms having a sufficient acreage, implements drawn by three or four horses instead of two, says an Experimental Farms Note.

In many cases the time of a man could be saved by using, for example, a two or three-furrow plough, multi-section harrows, or a double cultivator. For the cutting and hauling of hay or grain, much labor could be economized through the use of larger implements, as these implements are ordinarily used during several days each year.

On a 200 acre farm where a 5-year rotation is followed and of which 15 acres are seeded to corn or other hood crops, 65 acres to grain and 80 acres to hay, an average of 500 to 650 hours of man labor equal to 80 to 85 ten hour days can be saved yearly solely through the use of more powerful implements.

The labor which is saved could be used for other lines of work which are often neglected because of the lack of time, or the tilted area might be extended and thus increase the farmer's income. In most cases it would not be necessary to increase the number of horses on the farm for such a change.

It is readily understood that the farmer who already owns a complete set of agricultural equipment is not ready to sell it as a whole in order to buy larger implements, but as he gradually replaces his equipment, he would be wise to consider the advisability of buying, even at an increased cost, three or four-horse rather than two-horse machines.

A Dual Source Of Wealth

Coal Mines and Clay Deposits In Southern Saskatchewan

A new coal mine has been opened up recently in the Estevan district, Southern Saskatchewan. The coal seam is several feet deep and carries an overburden of valuable commercial clay. The mine is being operated by a force of practical miners, and the coal retails at 15 per cent to local farmers who haul it from the pits. Clays from twenty-two different deposits in Southern Saskatchewan are now being tested at the laboratories of the provincial university to determine their suitability for the manufacture of ware. This classification includes such products as household ware, electrical porcelains and floor and wall tile.

You can't stretch your word far without breaking it.

Fame Of The Dominion As An Ideal Vacation Land Has Been Spread Far And Wide

Much has been said in recent years relative to the variety and extent of Canada's recreational resources. The annual national income derived from such resources, although hard to estimate accurately, is one which compares favorably with the annual value of the products of her forests, of her mines, fisheries or any other industry. In addition to keeping abreast with other progressive countries in the field of commercial activities, Canada has established a world-wide reputation as being a charming holiday land where practically all forms of recreation are available at moderate cost to the visitor. There are few records in the annals of Canadian development more interesting or more remarkable than those of the manner in which the economic importance of the Dominion's recreational features has grown in recent years.

Not the least among the many changes in the conditions of modern life are those resulting from the development of the automobile as a means of transportation. An amazing increase in the volume of holiday movement has been witnessed during the last few years and the automobile has played a large part in this regard; it is no longer considered a luxury of the rich but is rapidly becoming a necessity for the man in moderate circumstances.

Some idea of the extraordinary growth of the holiday traffic may be gained from a comparison of the records of touring automobiles entering Canada over a period of years. Between 1919 and 1926 the number of cars receiving permits to enter the Dominion for a period of 30 days rose from 59,000 to 550,000 and those entering for twenty-four hours increased from 177,000 to over 1,500,000. The number entering for a period of from one to six months also shows a substantial increase. Aside from the remarkable increase of motor tourists, railway and steamship lines each year add enormous numbers to the thousands who holiday in Canada. Including an even wider field than the automobile these organizations have spread the Dominion's fame as an ideal vacation land far and wide.

The vast numbers who annually visit Canada by automobile can find an opportunity to spend part or all of their vacation in territory extending beyond the usual avenues for travel. In keeping with the desire of many who wish to visit never fields and in order to provide facilities for easy and convenient travel, motor highways have been constructed which now enable the tourist to reach beautiful lakeland country, in some instances

rarely explored. There are now over 150,000 miles of improved roads in Canada. In addition to this vast mileage, which is kept in good condition throughout the touring season and in some districts available to the motorist during the whole year, there are many thousands of miles of other roads quite suitable for general motor traffic. Leading to practically all places of interest in the populated areas of the Dominion these motor roads contribute largely toward the development of her recreational resources.

Few countries in the world possess such magnificent and diversified natural scenery or such inviting number and winter vacation areas as Canada. Fortunately for the inhabitants of the large cities of America nature has bountifully provided immense playgrounds in her wide expanses of mountain, lakeland, forest, and river. National and Provincial parks covering an area in the neighborhood of 25,000 square miles and ranging from the Atlantic seaboard to the Pacific coast are all easily accessible either by rail or motor road or both and provide the tourist with exceptional opportunities for varied recreation. The huntsman, fisherman, camper or canoeist will find in Canada's hinterland great stretches of primeval forest, rolling plain, and mountain range, the natural haunts of moose, deer, caribou, bear, bighorn sheep, mountain goat and other native game animals; beautiful lakes and countless swift-flowing rivers affording an opportunity for some of the very best fishing to be found anywhere in the world.

From a historical viewpoint Canada occupies a unique position among the countries of the world. Some of the most romantic and interesting episodes in the history of North America afford an extensive field for study to those interested in the early history of the continent. There still remain, in many districts throughout Canada, visible evidences of early conflict in ruins which have been preserved, and there may be found original forts, blockhouses, powder magazines, guard houses and listening posts as well as other evidences of early important events which have direct bearing on the political, economic and industrial progress of the country.

Taking into account the scope and variety of the attractions found from coast to coast and from the International Boundary to beyond the Arctic circle, there is every reason for the view that the natural assets which have been indicated above will prove to be one of the major forces of Canadian development in the future.

Helping the Farmer In B.C.

Press dispatches state that federal farm loan benefits are to be extended to British Columbia by legislation introduced in the provincial assembly on the recommendation of the agricultural committee. Loans will be obtainable on mortgage up to fifty per cent of appraised value of land and twenty per cent on buildings.

Served Eighty-Two Years

After serving 82 years with the same firm, John Hughes has just resigned as general works manager of George Sailer & Co., manufacturers of weighing machines, at West Bromwich, England. He started with the firm at nine as an errand boy and served continuously until ill-health caused his resignation.

"You seek a cashier? You had one a week ago!"

"Yes, I am seeking him also." — Pages Galat, Yverdon.

ROYAL GIFT TO CANADA

The Bible which the Prince of Wales presented to Canada's national war memorial is seen reposing on the altar of sacrifice in the Victory Tower. Although the presentation was made upon the occasion of the prince's last visit to the Dominion, it was only recently that the gift was learned about, the memorial chamber in which it reposes being thrown open for inspection only on special occasions.

SITUATION IN THE NEAR EAST LOOKS OMINOUS

London.—The stern note which Great Britain presented to Egypt, stating in effect that the British will not grant full independence to that country at present has been coupled with the "holy war" in Arabia to create a situation which may affect British relations throughout the Near East to the borders of India.

Despatches from Egypt assert that the political situation there is fraught with confusion, uncertainty, and excitement. Egypt is without a cabinet, but the Nationalist leader, Nahas Pasha, after an hour's audience with King Fuad, declared that constitutional governments would be formed as long as the constitution exists.

The British note, which apparently dropped like a bombshell in Cairo political circles after the breakdown of negotiations for an Anglo-Egyptian Alliance, makes it clear to the Nile country that Great Britain will not tolerate any legislation that is likely to hinder British power in protecting foreign life and property in Egypt. The note reveals that the British Government has for some time feared that such legislation would be adopted by the Egyptian parliament. But so long as there was prospect of a treaty of alliance, Britain refrained from expressing these fears.

Well informed British observers believe that the home government now has said her final word and that the burden of the next move in the imbroglio rests in Egypt. Shorn of diplomatic verbiage, the position is about as follows:

Egypt declines to sign any treaty of alliance which does not accord absolute independence to her. She rejects the right of Great Britain to maintain troops in Egypt or to have any control over the Egyptian police. Britain, on the other hand, firmly intends to keep her troops there, believing the soldiers are necessary for protection of the Suez Canal. She also insists on maintaining a measure of control over the Egyptian police and observers explain that this is to prevent any situation arising which might result in some other power taking a hand in Egyptian affairs.

Whether Egypt signs such a treaty or not, Great Britain will insist on these demands, in the opinion of British observers.

Pictures Cannot Be Shown

Photos of Lieut.-Col. Amery's Tour Will Not Be Exhibited

London.—In connection with the recent Empire tour of Lieut.-Col. L. C. M. S. Amery, secretary of state for Dominions Affairs, photographs of various places and interesting incidents were taken by Cecil Beaton, M.P., former private parliamentary secretary to the Minister of Health and the Chancellor of the Exchequer, who accompanied Col. Amery on the tour. It was proposed to exhibit the pictures within the precincts of the House of Commons. Now, however, permission for the exhibition has been refused by the Lord Chamberlain, the Earl of Cromer, with whom the decision on the matter rests.

Sterilize Feeble Minded

Edmonton.—Following one of the stormiest passages that any measure before the Alberta House has been accorded in recent years, the Sexual Sterilization Bill was given third reading and will be put into effect as soon as it has been assented to by the lieutenant-governor. By the action of the legislature, Alberta becomes the first province in the Dominion of Canada to undertake sterilization of the feeble-minded.

Gift For Medical Research

Stockholm.—At the request of the monarch himself, Sweden's birthday gift to King Gustav V. will be devoted to work for suppression of cancer. A national subscription for the fund in honor of the king's 70th birthday, June 18, has been started, and the king has accepted in advance, on the promise that the money be used for medical research.

Saskatchewan House

Prorogues

Thirty Bills Were Put Through In Final Session

Regina.—With traditional dignity and solemnity His Honor Lieutenant-Governor Newlands prorogued the third session of the sixth Saskatchewan Legislative Assembly, since January 24, thirty three sittings were held during the session, including 11 night sittings, four morning sittings and a Saturday sitting.

The closing ceremony came after a long busy day during which more than 30 bills were put through the closing stages and passed. One of the last items of business transacted by the House was the passing of supplementary estimates totalling \$1,118,518 to cover expenditures already incurred. These were put through with little interruption, except a question now and again as to how the money was spent. An item of \$115,000 was required for the Power Commission's work. The main items included \$55,208 for the Treasury including a grant of \$10,000 to the Canadian National Institute for the Blind, and \$25,198 for Freight Rates Inquiry; \$500,000 for the Farm Loans Board; \$193,000 for the Educational Department; \$52,220 for the public health department.

Votes totalling \$24,300 were included in additional estimates to bring indemnities for members of the Legislature up to \$2,000 a year from \$1,800; to provide \$3,000 for leaders of the Opposition and to give the Premier an increase of salary from \$6,000 to \$7,200 a year. These increases were discussed a day or two ago when it was pointed out that Saskatchewan members were the lowest paid in any legislature west of the Maritime Provinces, and Howard McConnell, the member for Saskatoon, declared Premier Gardiner, while the hardest worked man in the province, was poorly paid when there was no reason for the province to be too niggardly.

New Discovery At Flin Flon

Another Ore Body Located Said To Be Important

Toronto.—Reports from Flin Flon Mines are that a new ore body has been located south of the main ore body. It is stated that the new find is one of considerable importance.

Development work is being pushed forward energetically. On the 400-foot level a crosscut 240 feet in width has been drilled on for a length of approximately 300 feet. The average value obtained has been 2 per cent. copper and some zinc, but some sections are of much higher grade, one of 20 feet width running between 5 and 6 per cent. copper.

The work of preparing a new townsite is well under way, and sites have been selected for the concentrator and smelter. The present camp buildings will be removed to make room for the new plant.

Banking System Discussed

Government Inspector Says Nothing Wrong With Present System

Ottawa.—C. E. S. Tompkins, government inspector general of banks, appeared before the House of Commons committee on banking and commerce and submitted to questions by the members. The banking system, as it existed, met the needs of the country, he told the committee. Of course, from time to time changes were necessary but he could not see anything radically wrong with the system.

The views of the Canadian Council of Agriculture with respect to banks and banking were presented by A. E. Darby, director of economic research for the council.

Pioneer Missionary Dead

Winnipeg.—Rev. Dr. John McLean, historian and pioneer missionary of Western Canada, died here following an attack of influenza. Dr. McLean, who was in his 77th year, since coming to Canada more than 50 years ago had been prominently connected with the activities of the Methodist Church in the Dominion.

The domestic market absorbs annually \$87,000,000 worth of Canadian agricultural products as against \$600,000,000 worth exported. The value of the per capita consumption of farm products in Canada amounts to \$87.50.

Daring Aviators Return To Safety

Flying Officer A. Lewis (1), and Pilot Sergeant N. S. Terry (2), crew of the Fokker plane Saskatchewan, who were missing since February 17 until March 1st. Their plane being wrecked, they managed to travel overland sixty miles to Port Burwell, after suffering incredible hardships.

Government Bill Criticized

One Day's Rest In Seven Bill Does Not Please Manitoba Laborites

Winnipeg.—Though it was given second reading the Bracken Government's bill for one day's rest in seven for certain employees was severely criticized by the labor and Conservative leaders in the legislature.

Under the bill, declared John Queen, Labor leader, the bill only applied to employees already getting one day's rest in seven. Mr. Green described the bill as "a bluff," the work of an unsympathetic administration.

"The bill," said Mr. Queen, "applied to piano and organ factories, though there were none in the province. Why not, on the same principle, apply it to shipbuilding, the building of dreadnaughts and submarines? Let us have a real act, when we are at it."

Fight Destructive Insects

Ottawa.—The fight against the destructive insects which prey upon Canadian crops was described by Arthur Gibson, Dominion entomologist, to the convention of the Canadian Horticultural Council here. The use of the aeroplane for dusting in an endeavor to rid the crops and soil of certain insects was experimented in last year and proved quite promising.

Australian Rugby Team Here

Nothing but praise for the sportsmanship of Old Country people was expressed by the Waratahs, New South Wales, Australia, Rugby Team, when they arrived in Canada recently on the Canadian Pacific Steamship Melita. During their nine months tour of Great Britain and France, where they played 35 games with record crowds in attendance, sometimes exceeding fifty thousand, they

Escape Death When Airplane Crashes

Eight Passengers On London To Paris Flight Were Uninjured

London.—Eight passengers of an aeroplane flying from Paris to London had a remarkable escape when the machine crashed in a field near the Lympne airfield in Kent. Baroness Van Tili Canch Kavanagh, of the Hague, was cut in the face by glass, but the other passengers were uninjured.

Trouble was experienced when the plane reached the French coast, and its speed was reduced. Near the airfield the left wing suddenly dipped, and the plane spiralled rapidly toward the earth. It crashed and bounced several times after the wing struck the ground. The passengers were jolted all over the place and the baggage tumbled about.

Unconcerned, the pilot, Roger Maury, climbed out of the cockpit, opened the passengers' door, and all scrambled to safety, fearing the machine might catch fire as both engines were wrecked.

Later Pilot Maury explained that a valve spring in one of the engines had apparently broken.

Infant Princess Dies

Six Months' Old Daughter Of Emperor Of Japan Succumbs

Tokyo, Japan.—The six month old daughter of Emperor Hirohito of Japan, is dead. "Complications following pneumonia," was assigned as the cause of the death of the Imperial baby, who had been critically ill for several days.

The child was originally attacked by influenza, from which the emperor or himself also suffered, together with thousands of Japanese people. It was announced that the emperor was convalescent.

At the bedside of little Princess Hiss, were the Empress and other members of the royal family. There will be no official mourning as the child was under seven years of age, and no public mourning. Internment will be under Shinto rites at Asakusa, near Tokyo, where the late Emperor Taisho is buried.

Mine Chief Admits Laxity

Hollinger Disaster Due To Order Not Being Enforced

Timmins, Ont.—Charles Williams, Hollinger's general superintendent, admitted to the Royal Commission inquiring into the Hollinger disaster, that there was a "very bad slip up" from himself down to the transportation men, when his orders about disposal of powder house rubbish had been disregarded.

Instead of putting the rubbish in the waste pass or else mixed with rocks in the slopes, had been put in the slopes without any rocks, and as a result had started the fire which snuffed out the lives of 39 miners.

Williams could not say who was responsible. Williams said he knew of no one who could give further information when it was suggested the commission adjourn so that it might conduct an inquiry there.

REPORT TELLS OF SEARCH MADE FOR AVIATORS

Ottawa.—Beacon's burning on mountain tops and rockets were used to spread the news of the seeming tragedy all over the North land, and officers of the Royal Canadian Air Force did all that was humanly possible to locate Flying Officer Lewis, Pilot Sergeant Terry and the Eskimo "Bobby" when they were missing, according to the latest radio reports to reach Ottawa from the Hudson's Bay base at Port Burwell, Ungava.

In a lengthy report of steps taken to find the trio, Squadron-Leader T. A. Lawrence, of Ottawa, who has charge of the R.C.A.F. detachments in the north, detailed areas covered by aeroplane and dog team. Every section of Ungava and Ungava Bay within an area of 200 miles were searched. Dog teams with Eskimos were sent out to establish caches of food and supplies, and to warn Hudson's Bay posts and Eskimo villages that the aviators were missing.

Bonfires were kept going from a high point behind the Port Burwell base at night. Flares and distress signals were fired off until this had to be suspended through shortage of fuel and flares.

Squadron Leader Lawrence tells of the part played by Flight-Lieutenants Brian Carr-Harris, Ottawa, and A. A. Leitch, Winnipeg, in the search, and adds, "great credit is due to members of the Royal Canadian Mounted Police, Mr. C. Ford, manager of the Hudson's Bay Company's post at Port Burwell, Capt. W. Bennett and crew of the C.G.M.M. steamship Canadian Explorer and the natives of the whole district for their untiring assistance in search of missing personnel. Personnel have now entirely recovered from their harrowing experience."

In official circles here it is believed the plane which the three men were forced to abandon will be washed up on the shores of Labrador or Newfoundland in due course, or the wreckage picked up at sea. The ice on which it was deserted was being borne southward by the Labrador current, and it would thus probably remain visible up the surface of the ocean for several months at least.

Woman Liberal Elected In Britain

Mrs. Walter Runciman Successful Candidate In St. Ives

Penzance, Eng.—The first woman Liberal in the present British Parliament and the first husband and wife combination in the House of Commons have resulted from the recent by-election in Saint Ives.

Mrs. Walter Runciman, wife of the Liberal member for Swansea West, not only became the first woman Liberal in the present House, but succeeded in capturing the St. Ives constituency from the Conservatives.

The district formerly was a Liberal stronghold, but returned a Conservative at the last general election in 1924.

Mr. Runciman, who is a prominent figure in the Liberal party, actively supported his wife's candidacy.

Boy Inherits Millions

Young Son Of New York Millionaire Receives Legacy

New York.—A five-year-old boy today had joined the ranks of American millionaires. John Mortimer Coward, 3rd, of Glenridge, N.J., is to receive at least two-thirds of the more than \$4,000,000 estate of his father, J. Mortimer Coward, late head of the Coward Shoe Stores, who died in Havana recently.

Part of the fortune which the five-year-old boy inherits is \$1,000,000 from an insurance company policy his father took out last July. Mr. Coward was 78 years old.

Want Holiday November 11

Ottawa.—"In view of the request of the Canadian Legion, is it the intention of the Government to declare November 11 (Armistice Day), a National Holiday?" asked H. J. Barber, Conservative, Fraser Valley, in the House of Commons. He was informed that the matter is still under consideration.

Better Seed

Better Yields—Better Grades—Better Prices.

A special committee appointed by the Minister of Agriculture, with the co-operation of numerous organizations in the province, is urging the use this spring by farmers throughout the province of

High Quality, Clean, Treated Seed Grain,
in order to reduce the heavy annual losses sustained by sowing inferior seed.

- Farmers can co-operate by
1. Using registered seed wherever available.
 2. Using at least high quality commercial seed.
 3. Having seed tested for germination and purity.
 4. Treating seed for smut.
 5. Thoroughly cleaning all grain intended for seed.
 6. Seeding only varieties of recognized quality and varieties suitable to the district.
- Good seed will be in demand this spring. Secure your requirements early—before the supply is exhausted.

U.F.A. Locals, Boards of Trade, The Wheat Pool, Banks, Commercial Grain Firms, The Press, and many other organizations are working in co-operation with a

BETTER SEED COMMITTEE

consisting of representatives of the Provincial Department of Agriculture, the Dominion Seed Branch, the Canadian Seed Growers' Association, the Alberta Seed Growers' Association, the C.P.R. Agricultural Department, and the University of Alberta.

D. A. McCannel, Provincial Publicity Commissioner, Edmonton, Secretary.

U.S. Investment Abroad

World's Debt To the United States Reaches Huge Total
The world's debt to United States investors, approximately \$25,000,000, is more than \$50,000,000 greater than was owed to Great Britain, when British foreign investments were at their peak, Dr. Max Winkler said in a report prepared for the Foreign Policy Association.

Exclusive of the so-called political obligations held by the United States Government, American investment in foreign securities in the first of the year aggregated about \$14,500,000. American holdings in Europe, approximately \$4,327,000,000, exceeded those in any part of the world. Canadian holdings by Americans are about \$3,922,000,000; South America, \$2,616,000,000; Central America, \$2,924,600,000; Far Eastern, \$276,500,000, and miscellaneous, \$63,400,000.

No high-grade tea can be expected to retain its full flavor and strength unless packed in moisture-proof, metal-lined containers. Successful tea planters ship their tea in aluminum—the same rust, dust and damp-proof material which keeps Red Rose Tea always so fresh, strong and flavorful.

she ran yelling down the track with her nose to the lies.

Helm watched the poor animal until a bond of the road hid her from sight. Then she turned back into the darkened room sobbing. "Poor dog! poor dog!—just like me, forsaken men who go away should shoot all of us who love them!"

Helm hired a horse and buggy the next day and drove down the valley to Bannerman. She would know all there was to be known. She would find out what the magistrate meant.

It was a glorious day of blue sky, with a high wind that came booming through the pass in the mountain, roughening the deep pools of the river as it rapped over them. Helm loved its cool breath on her hot face. She could not be just down on such a day. Her Jack had not fooled her—no matter what any one thought. Helm told herself again and again that her great fear was that something had happened to him—her dear Jack, so white-skinned, clean and gentle.

Anyway, she would be brave. Next day was train day, too, and he might come. Twice a week the train came down to Eagle Mines from the north. Helm and so often watched it coming in, her heart in her mouth, that she had grown to dread train days, for during the last few months at the first ragged whistle that came yearly piercing the valley a violent nausea had seized her. As she drew near her destination it came again. She thought of the Wymouth and their awful philosophy. Was it all wrong? Had she done wrong? But still, everyone who was in the world had come the same way. Surely God wanted people, and yet, why did he punish women so? She sat still, a while, letting the horse feed along the side of the trail.

The magistrate was at home. No, he did not remember her, Helm. Linder, a Finn girl, whom he had married to Jack Doran last March? No, he did not remember. He and his friend, Major Gownett, looked at each other. The magistrate winked knowingly. "I think you are mistaken, girl," he said sternly. "Helm handed him her certificate. "You gave me this paper," she said. The magistrate addressed his friend. "There's only one way to settle this, I'll look up the record. If I married her to this young man the record will show. A certificate tells nothing. Anyone can buy a certificate and fill it in."

He went to a dusty cupboard, whose open door revealed only a row of bottles, brown, with gold labels, gleaming evilly through the gloom of the room. With difficulty he found his record book and spread it before him on the littered table.

"You said March of this year?"

"March the twenty-first," said Helm, breathing quickly.

The pages were turned slowly. "I married no one on March the twenty-first," he said, looking around at her over his glasses.

"Look at other dates, then," said Helm, trembling. "I may be wrong." The two military men regarded her closely. "You are wrong more ways than one," said the magistrate slowly. "Look, see, for yourself—there is no entry of any marriage."

GIN PILLS
FOR THE KIDNEYS
AND BLADDER
The quickest and most effective relief from Lame Back and Kidney trouble is given by GIN PILLS. They promote health by restoring the kidneys to their normal action of filtering the poisons from the blood.

Get a box at your druggist's

A sudden fury came over Helm. "You were drunk that day," she cried. "You were red-eyed and staggering! You forgot to write it down. You sent me out. You spoke to my Jack here while I sat outside. You mind I said 'Come outside to marry me.' You were cross and swore."

Major Gownett interposed. "Hush, girl," he said, "you must remember Col. Blackwood is a magistrate. Your condition makes you hysterical. We're sorry for you, but you must not speak like this."

Col. Blackwood said not a word. He went again to the cupboard, and after fumbling among the papers there brought back a newspaper slightly yellowed. "I'll show you something, you helcat!" he said, slowly, taking his pipe from his mouth and laying it carefully on the windowsill.

(To Be Continued.)

Russia's "Man Of Steel"

Man Who Captured Leadership Has Become All-Powerful

Joseph Stalin, the Russian "Man of Steel," who is holding that troubled empire in his hands today was born in the year 1879, and his real name is said to be Dzhugashvili or Dzhugashvili. Probably he changed it because he preferred one easier to pronounce.

He comes from fighting stock, says an article in the London Daily Mail by Dr. Edward Luboff, an eminent chronicler of Russian affairs, who has known Stalin since his boyhood days.

Today he is all-powerful, not only because the Army and the Cheka are his command, but because at the first sign of anti-Stalinism he puts in motion the party machine, which declares every opponent of Stalin an enemy of the party and of the Soviet State. As for his personal safety, he has been invested with a whole regiment composed chiefly of Caucasian brigands. And it may be added that the Georgian brigands will fight to the death for the safety of a descendant of one of their comrades who has managed to conquer Russia.

MARCH WEATHER DANGEROUS TO BABY

Our Canadian March weather—one day bright, but sloppy, the next blustery cold, and often very hard on children. Conditions make it necessary for the mother to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come, get a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his bowels and bowels working regularly. The Tablets are a mild but thorough laxative which never irritates the stomach and bowels and thus they relieve colds and simple fevers and keep the baby fit. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Gold Discovery In B.C.
During development operations on the Vahlbach-Kleazar mineral claim near Central British Columbia, high grade quartz showing much free gold has been disclosed in two parallel tunnels about 30 feet apart. The veins are from two to four feet wide.

On fishing trips take Minard's.

Purchases Totem Pole

Thirteen Foot Specimen Bought in Victoria By English Tourist

Picturesque British Columbia freight, product of one of the earliest of "home industries," was shipped from Victoria recently when an Indian totem pole consigned to W. R. Fisher started on its long voyage to England.

Mr. Fisher is one of the London directors of a fire insurance society and on a trip to the West Coast of Vancouver Island last summer he was particularly fascinated by one of the totem pole villages and he made it his business to secure a 13-foot specimen for the grounds of his home at Waterdale, Bourne End, Bucks. The totem will be one of the few in England outside a museum.

Two American towns are named after Rudyard Kipling.

A man's temper improves the more he doesn't use it.

Little Helps For This Week

"But ye, brethren, be not weary in well-doing."—2 Thess. ii. 13.

Life is not living. Just for today. Life is not dreaming. All the short way.

The living for others. To lighten their load. To help their brothers. And trusting in God.

—Hoadley.

Life is made up, not of great sacrifices or duties, but of little things, in which smiles, and kindnesses, and small obligations given habitually win and preserve the heart and secure comfort.—Sir Humphrey Davy.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective, is mild.

Auto Licenses In Alberta

During the past year 72,964 auto licenses were issued in Alberta, of which 9,061 were issued in Calgary and 8,517 in Edmonton. There figures will likely be surpassed this year.

Troubled With Painful Eruptions Cuticura Healed

"I was troubled with itchy, sore eruptions on my head for over a year. They were very embarrassing in company as I wanted to be scratching all the time, and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment, they have completely healed." (Signed) Miss H. Randall, 309 Kensington St., St. James, Man., Sept. 7, 1927.

Cuticura Soap, Ointment and Tablets are all you need for all itchy, sore eruptions. Soap to cleanse, Ointment to soothe, Tablets to powder.

Sample each free by mail. Address: Cuticura, Dept. 100, P.O. Box 100, St. James, Man. Cuticura Soap, Ointment and Tablets.

CHAPTER XX.—(Continued.)

The nausea that came over Helm made her very uneasy, but she caught the back of a chair and managed to say, "Oh! It is all right; Jack left me lots of money; I really do not need it. I just thought I had better take it with me," she was holding her lips very tightly so they would not tremble. She even smiled, winking very quickly to keep the tears back. "I expect to meet Jack in the city," she resumed. "He has forgotten to mention to me that he sent for the money—but it is quite all right. I have plenty. Goodbye, Mr. Hamilton. It looks like snow, does it not?"

Helm turned away quickly. The tinkeer called her back. "Say, Helm," he began awkwardly, "don't think I am buttin' in or the like of that, but I just wanted to put you wise. That old bird of a magistrate at Bannerman has been hounding his mouth. It seems he claims he knows a lot about you. He says—Oh, well, I don't need to repeat what he says—he is drunk most of the time, and nobody should mind a word he says; but he declares you and Jack ain't legally married at all, and he insinuates that Jack sort of 'tipped him off. Oh, I don't know the ins and outs of it, but I just wanted to warn you to hang onto your certificate, and then in case of a frame-up you'll have the deadwood on you, and you'll have the certificate, have you not?"

Helm nodded, her heart was beating in her throat so painfully she was afraid he would see it.

"Well, then, you're sure to the good. But I just thought I would warn you up on what was goin' round. We're all for you, Helm—your friend that!"

CARRIED WIFE TO BED

Suffered So She Could Not Walk. Restored to Health by Lydia E. Pinkham's Vegetable Compound

Mining, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it. And now I can tell you how much about Lydia E. Pinkham's Vegetable Compound. I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NANCY BOWMAN, R. R. 1, Mining, Ontario. Do you feel broken-down, nervous, and weak sometimes? Do you have this horrid feeling of fear which sometimes comes to women when they are not well? Lydia E. Pinkham's Vegetable Compound is the easiest to take at such a time. It always helps, and if taken regularly and persistently will relieve this condition.

or I.B.S.A. 270 Dundas St. W. Toronto, Ont.

Stony Plain and District.

In Edmonton, on Sunday, March 11, to the wife of Mr F W Yeats, manager of the Canadian Bank of Commerce, a son.

Mr John Brennen and Mrs Brennen (nee Sinner), and Mr Wm Ray, all of Vancouver, were visiting friends in this district over the week-end.

Mr Peter Odenbach has purchased the Henry H Miller house and eight lots on Meridian road for the sum of \$1525. Mr Miller is moving to his daughter (Mrs Baron's) farm at Blueberry.

The Nanniazeff farm, south of town, has been sold to Mr Tony Rosenberg, on the staff at the Armbruster mill; who will put a renter on it the coming season.

Mr Wm. Lauxman, who recently purchased the Henry Henkel farm, on Meridian road, takes possession on the 15th, and will farm it the coming season. Mr Lauxman came out from the Old Country last summer.

There will be a special meeting of the ratepayers of Golden Spike S. D. on Saturday next, March 17, to elect a trustee, to replace Mr Chas. Goistlinger, who has moved out of the district.

A dance which was well patronised was held Friday evening last at the Gramina Schoolhouse. It was a farewell party to Mr and Mrs Wm O'Gorman, who have resided in the district for a number of years and were leaving to reside at Green-couree.

M M Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, March 30th. See him and see well.

Carvel News

About 25 farmers were present in Carvel Hall when Mr W F Stevens, of the Field Crops branch of the Dept. of Agriculture, gave an address last week on the advantage of planting pure seed for grain crops. During the course of his remarks, the speaker dwelt on the menace which the encouragement of the growth of weeds has come to be, mentioning in particular the sow thistle. Mr Stevens gave, also, a brief outline of the manner in which noxious weeds on farms may be controlled and eradicated.

Mrs Renekensy, who was operated on recently for appendicitis, in an Edmonton hospital, is making good progress toward recovery.

A big Community dance is billed to be held in the Ukrainian hall on tomorrow (Friday) evening.

Mr Vic Mrokwia has gone to Camrose.

Send Coupons In.

Wheat Pool members should arrange to send their delivery check and coupons to the head office of the Wheat Pool, Calgary, at once. These coupons must be in the office before a second payment can be made. We strongly urge members to see that their coupons are sent in.

Auction Sale of Horses

Quite a large number of farmers were in attendance at the horse sales in Stony on Saturday afternoon. The top notch team brought \$278 and a single mare brought \$142. The bidding was draggy at first, but Auctioneer Zucht soon got the crowd warmed up, and then some keen bidding commenced. There is the prospect of another carload of work horses coming in to Stony before the spring work opens up.

Calendar.

March—
16—A R Gillies' big sale at Clover Bar.
20—Val Mohr's Sale.
22—S W Woodruff's sale.
30—Mecklenburg at the Royal Hotel.
April—
5—Town Council meets.
6—Good Friday
9—Edmonton Spring Livestock Show.
9—Dance at Holborn Hall.
18—District Court holds a session at Stony.

Spruce Grove News

The new electric lighting plant installed the McLeod store premises is quite an innovation for the village; the large outside lights shedding their rays, in the evenings, on what had 'heretofore' been a dark thoroughfare. Other business men will, no doubt, follow the example set by Mr McLeod.

Mr Louie Javorsky, the enterprising farmer who lives just east of town, is leaving shortly on a trip to Banff.

What promises to become a big building boom in the district for the coming summer is apparent from the large quantity of lumber and building trim now being sold and hauled from the local lumber yard.

Three local farmers drove a bunch of work horses down the trail, from Edmonton, on Sunday morning, which they had purchased in the City.

American Farmers Coming

W E Black, Canadian Government agent at Fargo, North Dakota, in a letter to the Publicity branch of the Alberta government, states that there is a prospect of a very considerable movement of settlers from his territory to western Canada during the coming spring and summer. All the western provinces are receiving their share of attention at this time, states Dr Black, and more inquiries are being received about farming opportunities in Alberta than for many years.

Here and There

Forty-five years of faithful service to the Canadian Pacific Railway were honored recently when George A. Fowler, 32-year lumber agent of the company, was presented by George Simpson, chief traffic manager, with a purse of gold, contributed by Mr. Fowler's colleagues in the railway's freight traffic offices east of Chicago in the United States and east of Port William in Canada.

Fergus—A special train of 35 cars left for Vancouver and points en route the other day with over 11,000 consignments of washing machines and barn equipment. This trainload, the largest of its kind ever to originate in Canada, is from a Fergus firm and was handled by the Canadian Pacific Railway as a special train, stopping at Port William, Winnipeg, Saskatoon, Calgary, Edmonton and other centres. Nearly all the consignments were for rural communities.

Immigrants are beginning to pour through John and Ontario and the West. With the arrival of Canadian Pacific lines, Montclair and Montclair recently, in the neighborhood of 600 settlers of the best type have been distributed. Among them were British farm laborers going to selected farms under the scheme of the Canada Colonization Association, and many more will be coming in during the next few months.

Toronto.—In accordance with his promise to Western Ontario tobacco growers, Hon. W. R. Motherwell has appointed a commission to investigate all phases of the tobacco-growing industry, for which two of the commissioners have already been named. The probe will extend to every phase of the industry, from seedling to marketing, and one of the most important features will be the effort to ascertain the best method of operating a proposed co-operative marketing pool.

Port Arthur.—Eventually Canada will produce a 1,000,000,000 bushel crop of wheat and will have no difficulty in finding a market for it, predicted Hon. T. A. Crerar, President and General Manager of the United Grain Growers Limited, and formerly Minister of Agriculture for the Dominion. Referring to the development of Western Canada, Mr. Crerar said there was no country in the world where so great a development had taken place in the past few years and there was no country having such great possibilities.

In order to meet the increasing popularity of the Canadian Rockies among tourists, and also to aid in developing trans-continental travel, the Canadian Pacific Railway will run a quintette of trains across the Dominion from Montreal, Toronto and Chicago to the Rockies, Vancouver and Victoria this coming summer. These trains will be "The Trans-Canada Limited," "The Imperial," the Toronto-Vancouver Express, and "The Mountaineer" and "Soo-Pacific Express" from Chicago. The Trans-Canada and the Mountaineer will be all-sleeping-car trains.

Vancouver.—"Maize," the famous white Leghorn hen owned by the University of British Columbia farm, officially known as Hen No. 1, the world's champion layer with 571 eggs in a year, is proving a substantial revenue producer for the University of British Columbia. Last year the sale of pedigreed poultry stock from Maize returned to the University \$1235. Two of her cockerel fished \$500 each when sold to Ohio poultry raisers, and her mother cockered red in New Jersey for \$300. The University anticipates on sale of pedigreed stock from Maize's stock raising a profit for the year.

The self-stropping feature of the Auto-Strop Razor makes the blades last longer by preserving the edge that makes shaving comfortable. 500 shaves from 12 blades.
